

INFLUENCE

Influence is a balance, not a speech.

How to move people who do not report to you.

AND THE CONSEQUENCE

Whoever only withdraws goes broke, whoever deposits early has credit when the request comes.

THE CASCADE

How influence gets burned.

WHAT YOU SEE

You only show up when you need something...

THE MECHANISM

...always urgent, asking for priority...

THE CONSEQUENCE

...and they start postponing you by default.

Whoever only withdraws runs out of balance, and then the request is an annoyance.

THE FORK

Why would this person help you.

WHY THEY HELP

01

Because you already delivered something to her? Balance.

02

Because your proposal solves a problem of hers? A trade.

03

Because you pushed hard enough? That is not influence, it is attrition.

Influence is creating value for the other person, not convincing them of yours.

THE METHOD

The four currencies of influence.

01 DELIVERY

a record of keeping agreements, it makes people listen first

02 INFORMATION

you see something they do not, and tell them before you need it

03 ACCESS

you know who unblocks things, and connect people for free

04 RELIEF

you take a concrete pain out of their day, however small

| All four get deposited before the request, never on the day of it.

IN PRACTICE, IN ORDER

Four concrete moves.

01 • DELIVERY

Deliver something small and on time.

the first on time delivery is worth more than ten meetings

02 •
INFORMATION

Send the data that helps them.

asking for nothing in return, and not copying their boss

03 • ACCESS

Introduce two people who need to talk.

a good connection earns credit in two accounts at once

04 • RELIEF

Fix one annoyance in their routine.

that manual report you can automate in an afternoon

TWO MODELS

Pushing or pulling.

THE COMMON MODEL

Pushing

Shows up only with a request

Argues from your own objective

Escalates at the first no

Has to insist every time

THE DESIGNED MODEL

Pulling

Shows up before needing anything

Argues from their problem

Solves it together before escalating

Gets sought out without asking

MISTAKE AND CONSEQUENCE

Three habits that close doors.

01 Copying their boss on the very first chase.

- you win today's answer and lose the collaboration of the half year.

02 Taking credit for the joint solution.

- once is enough, and the next door is already closed.

03 Treating everything as urgent.

- when everything is your priority, nothing is theirs.
-

| Influence takes months to build and disappears in one episode.

THE CHAIN

The unasked favor test.

01

Look at the last thirty days.

02

How many people outside your team did you help unasked?

03

That number is your influence balance for the months ahead.

WHERE LEADERSHIP STEPS IN

If the number is zero, the next request will cost you dearly and take longer.

RUN IT THIS WAY NEXT TIME

How to start depositing this week.

▣ STEP 01 Pick two people you will need in three months. think about who unblocks what you plan to propose this quarter	▣ STEP 02 Find one concrete pain for each of them. ask what gets in the way of their week most, and listen fully	■ STEP 03 Fix one of them, small, and on time. asking nothing in return, and never bringing it up later
--	---	--

| Whoever deposits before needing never has to ask with urgency.

THE MODEL THAT STICKS

The Four Currencies, a loop and not a list.

Influence is not asked for. It is deposited before you need it.

SAVE THIS FOR LATER

next time you need someone you cannot instruct.
